

DRAGON CH 10W-30

Multigrade oil for Diesel engines

USES

- Suitable to all turbocharged or normally aspirated Diesel engines of civil works machines, trucks, fishing boats, locomotives.
- Suitable for Diesel stationary engines (energy production).

PROPERTIES

- High viscosity index.
- Good level of detergency.
- Exceptional detergency level.
- High stability in operation.
- Excellent antiwear and anticorrosion properties.
- Excellent antioxidant, antirust and antifforming properties.

SPECIFICATION

International specifications

- API CH-4/SJ

CHARACTERISTICS

Test Items	Method	Unit	SAE grade 10W-30
Specific Gravity 15/4 °C	ASTM D 1298	-	0.868
Viscosity 40 °C	ASTM D 445	mm ² /s (cSt)	67.5
100 °C		mm ² /s (cSt)	10.5
Viscosity Index	ASTM D 2270	-	144
Flash Point	ASTM D 92	°C	228
Pour Point	ASTM D 97	°C	-38

Above characteristics are mean values given as an information.
