

Press release

Euroboor B60 and B60S beveling machines  
Powerful, with an unique bevel depth of 24 mm

**Zoetermeer, March 6th 2019** – Regardless of company size, specialism or activities, at Euroboor you always find the perfect match. Euroboor designs, develops and produces industrial portable tools in-house and listens to the market by staying in close contact with the end-users. Therefore, Euroboor introduced the B60 and B60S beveling machines. Two premium machines, especially designed for the perfect pre-processing of your metal workpiece.

#### **Unique in the market**

With a maximum bevel depth of 24 mm, at an angle of 45°, the B60 and B60S beveling machines are unique in the market. The brand new beveling machines have a very powerful High Efficiency motor and are suitable for both plate and pipe material. Both machines also have a clear indicator for angle-setting and the wide and soft handles make them very comfortable to work with.

#### **More features and suitable for multiple materials**

The B60S beveling machine distinguishes itself from the B60 thanks to its exceptional powerful 1800 W motor, making this machine very suitable for processing stainless steel. The B60S has a variable speed, including material type indicator and last but not least it has overload protection.

Features:

- Maximum bevel depth of 24 mm, at an angle of 45°
- Powerful High Efficiency motor
- Smooth control with clear, precise and simple (protected) control buttons
- Clear indicator for angle-setting, up to 60°
- Suitable for both plate and pipe material up to 300 mm
- Simple replacement and indexation of the cutting plates
- Wide and soft handles

Extra features B60S:

- Exceptional powerful motor (1800 W)
- Variable speed, including material type indicator
- Extremely suitable for stainless steel (with the use of stainless steel guide plate)
- Overload protection

About Euroboor

Euroboor is a manufacturer and distributor of industrial portable tools since 1977. With five offices worldwide and a local network of dealers, Euroboor is actively involved in over 70 countries. Our products are considered to be the market standard in quality, reliability, efficiency and accuracy. It's our goal to exceed our customer's expectations for working with Euroboor tools.
